

EVENT FLOORPLANS

ROYAL ALEXANDRA HALL

We have attached two blank floorplans of the Royal Alexandra Hall along with enough table cut-outs to plan two events. You can use these to plan two different layouts and decide which one you prefer or to plan both parts of your event (example: Wedding ceremony and reception).

Please be aware that the round and rectangular table cut-outs are shaded because we only have a certain number of tables available. So if you are planning your event using the "grey" rectangular tables do not add extra white ones.

We have 23 round tables that are 5' (5 feet) in diameter. We recommend putting 8 chairs around each round table.

We have 12 rectangular tables that are 6' (6 feet) in length and 2.5' (2.5 feet) in width. We recommend 4 chairs per side (total of 8) around each rectangular table.

Both the hall floorplan and table cut-outs are drawn to scale. The scale used is $1/8" = 1'$ (1/8 of an inch is equal to 1 foot)

When planning your event floorplan please ensure that you leave adequate space between tables for chairs and walkways.
