

Grade 4

Scavenger Hunt:

- Interactions between First Peoples and Europeans lead to conflict and cooperation, which continues to shape Canada's identity. Our displays show the students this fact from a local perspective. They will complete a curriculum based scavenger hunt which includes the impact of colonization on First Peoples societies, the history of the local community, and the history of local First Peoples communities.
- The students will be broken up into small groups and will work together to answer the questions.
